

Conference

“Relativistic astrophysics and radioastronomy”

IKI, Meeting Room, 2nd floor

2 October

Morning session, Chair: G.S. Bisnovatyi-Kogan

10:00 – 10:40 **Acad. RAS N.S.Kardashev**, *Scientific program of space stations Radioastron and Millimetron.*

10:40 – 11:20 **Corr. member RAS V.I.Slysh**, *Radioemission of black holes*

11:20 – 11:50 Coffee break

11:50 – 12:25 **Prof., Doct. Sci. L.I. Matveenko**, *Investigation of space objects with super high angular resolution.*

12:25 – 13:00 **Prof., Doct. Sci. V.S. Beskin**, *Effective particle acceleration in jets.*

13:00 – 14:30 Lunch

Evening session, Chair: V.I.Slysh,

14:30 – 15:10 **Acad. RAS A.V.Gurevich**, *Energy losses by magnetized rotating star*

15:10 – 15:50 **Corr. member RAS I.D.Novikov**, *Black holes and wormholes*

15:50 – 16:20 Coffee break

16:20 – 16:55 **Prof., Doct. Sci. G.S. Bisnovatyi-Kogan**, *Accretion disks around black holes: physical models and observations*

16:55 – 17:30 **Doct. Sci. S.G. Moiseenko**, *Core collapse supernovae and gamma ray bursts*

17:30 – 18:00 **General Discussion**
